

Jean Louis Salbego

<https://jlouis.me> | jlalbego@protonmail.com | github.com/jlouiss

Overview

Self-taught and self-motivated developer eager to grow and learn new things. Passionate about web development and JavaScript.

Skills

- HTML5, CSS3, SCSS, UI Libraries (bootstrap and similar)
- Typescript, JavaScript ES5, ES6, JSX
- Angular 2+, RxJS, React, Next.js
- Tooling: advanced git, npm, nvm
- Python (2.7, 3+), Protocol Buffers
- Laravel, Eloquent, PHP, SQL
- Basic linux system administration, bash scripting

Experience

March 2019 – Present

Front End Developer | [Phantom](#) | London, UK

Responsibilities: Implement designs from scratch using vanilla JS, Angular (TypeScript), AngularJS and other open and proprietary JS libraries. I maintain projects, fix bugs and create new features for our main client's products, code reviews and deploy websites to production on AppEngine (GCP). Main clients: Google, Sony Music, FT and others.

Tools & skills: TypeScript (vanilla and with Angular), JavaScript, ES6, Angular, RxJS, AngularJS, SCSS, lit-html, web components, micro frontends, Google internal tools, libraries and frameworks (monorepo, CMS, code review system, cloud based tools, libraries), Google Closure Compiler & Library, Google Tag Manager, Google Optimize, Jasmine, unit testing, storybook, code reviews, Webpack, Gulp, Grunt, Git, GitLab, GitHub, IE11 compatibility, Python, Protocol Buffers.

December 2018 – March 2019

Senior Front End Developer | [Cytec Solutions Ltd.](#) | London, UK

Responsibilities: Work on client side functionalities and implement UIs from scratch on the company's products.

Tools & skills: TypeScript, Angular, SCSS, ngRx, C#, .NET, Git, JIRA, Bitbucket, Confluence, Slack, Zeplin

April 2017 – December 2018

Full Stack Developer | [Studio Storti s.r.l.](#) | Torri di Quartesolo (VI), Italy

Responsibilities: Develop a new version of one of the company's main products from scratch - a GDPR compliance software for public institutions / authorities / companies. Manage the deployment, creation and update of the different instances (both hosted on cloud or on-premises via ssh).

Tools & skills: TypeScript, Angular 2+, SCSS, ngRx, RxJS, Laravel, SQL, Eloquent, LibreOffice, Git, Ubuntu server administration, Bash scripting, TDD, Agile, JIRA, Bitbucket, Confluence, PHPUnit, PHP, Basic (for LibreOffice document scripting)

Acknowledgements: I introduced and mentored my team through the adoption of git. Then introduced git-flow and assisted the team in the implementation process. Developed ~80% of the front end.

August 2016 – February 2017

Web Developer | Dome Design | Thiene (VI), Italy

<https://domedesign.it> - made in Italy digital agency project

Responsibilities: Create prototypes, develop and deploy websites for clients.

Tools & skills: HTML, CSS, JavaScript, jQuery, AngularJS 1.5, ionic, Sass, Pug (now Jade), gulp, npm, git, ftp, Bitbucket

July 2016 – August 2016

(Volunteer) Google Apps Script Developer | Ashoka Globalizer | Germany (remote)

Responsibilities: create custom functionalities for a dashboard made with google spreadsheet through the Google Apps Script API with another remote developer from India. We had fortnightly skype meetings with the coordinator from Germany.

Tools & skills: HTML, CSS, JavaScript, Google Apps Script

Education

- February 2019 - Course: Full Stack with React Specialization (University of Hong Kong)
- December 2019 - FreeCodeCamp
- September 2016 - Course: Full Stack Development Specialization (University of Hong Kong)
- March 2016 - Course: Python for Everybody Specialization (University of Michigan)
- July 2014 - High School degree: Accounting and Bookkeeping - ITET Aulo Ceccato, Thiene(VI), Italy

Languages

- Italian – native
- English – fluent
- Portuguese – fluent

Certifications

- [FreeCodeCamp - Frontend Libraries](#) - December 2019
- [FreeCodeCamp - Responsive Web Design](#) - August 2019
- [FreeCodeCamp - Javascript Algorithms and Data Structures](#) - June 2018
- [FreeCodeCamp - APIs and Microservices](#) - September 2018
- [Coursera - Full-Stack Web Development with React](#) - February 2019
- [Coursera - Server-side Development with NodeJS, Express and MongoDB](#) - February 2019
- [Coursera - Multiplatform Mobile App Development with React Native](#) - November 2018
- [Coursera - Front-End Web Development with React](#) - October 2018
- [Coursera - Front-End Web UI Frameworks and Tools: Bootstrap 4](#) - September 2018

Personal Projects

- February 2022 | <https://onymous.it> - [preview](#)
Website for an Italian movie making project. I took care of providing a website and email domain (@onymous.it) and DNS setup.
Built with Next.js + React, hosted on Netlify.
- July 2019 | <https://dalima.me>
I designed and implemented a portfolio website for an independent movie maker from Italy. I also took care of setting up the website and email domain for dalima.me.
Built using lit-html + vanilla js, Webpack and SCSS. Hosted on Netlify.
- 2018 | <https://jlouis.me>
Personal website and @jlouis.me email domain, hosted on GitHub.
- 2016 | <https://domedesign.it>
Website for dome design, built with Pug (Jade) + SCSS + Vanilla JS and bundled with gulp, hosted on aruba.it.
